I have an older dishwasher also and recently my wife also complained about it not cleaning right. Bought new spray arms online and installed them in minutes. Now the thing works like new. However I have also found that if the heating element goes bad then that also can mess things up bad. So I would buy new spray arms, and also check out the heating element to make sure it is working. Here is a tip that will help you with the online buying. Dishwasher Problems The Heating Element not Working Dishwasher Maintenance Hope this answers your question and provides you with what you needed. Thank you for choosing FixYa and good luck. Please take a moment to rate the solution provided and a short testimony if you feel it's warranted, but also let me know if you require further assistance. Regards, Macmarkus I tried to cancel the cycle and it would not cancel. I am guessing I have a bad controller. Can you tell me how much that piece would be. The law firm for which I work is looking to acquire an old unrepaired Bosch SHU 33 dishwasher for some ongoing litigation. If you or anyone else with this model Bosch could send me some details regarding your dishwasher, you may be able simply to buy a whole new dishwasher. My email is JFraser at jshlawmi.com. Thanks! I have two broken in my Bosch dishwasher. Can I substitute another manufacturer's part? If you or anyone else with My email is. JFraser at jshlawmi.com. Thanks! See Figure 1 for an example. Page 2 CONGRATULATIONS. You have joined the many consumers who demand quiet and exceptional performance from their dishwashers. This manual was written with your safety and convenience in mind and the information contained herein is very important. We, at BOSCH, highly recommend that you read this manual prior to using your dishwasher for the first time. Read all instructions and understand before using the dishwasher. 2. Use the dishwasher only for its intended function. 3. Page 6 DISHWASHER COMPONENTS Figure 1, below, identifies the components of your dishwasher, and shows the page numbers in this manual on which more information about the component is available. Familiarize yourself with the various parts of your dishwasher before you attempt to wash the first load of dishes. 1 8 10 9 5 6 3 2 7 4 Figure 1 Components Page Number 1. 2. 3. 4. 5. 6. 7. 8. 9. 10. Pg. Pg. Pg. Pg. Pg. Pg. Pg. Pg. Pg. Page 7 MATERIALS CHART Important Before you wash anything in the dishwasher, check the materials chart shown below in Table 1. Some materials are not dishwasher safe and should be handwashed. Others require special loading considerations. Before washing any dishware or cookware, contact the manufacturer of the material to confirm that it is dishwasher safe. Food soils will actually enhance the detergent's performance. Load heavily soiled pots and pans face down, as shown in Figure 6. For larger items, fold down the rear tines on the bottom rack. When in the down position, they can hold extra large utensils, such as serving spoons or large knives. Figure 6 Top Rack Loading the Top Rack The upper rack of the dishwasher has been designed with flexibility in mind. Page 10 LOADING THE DISHWASHER Standard Top Rack Adjustment The top rack height of the Bosch dishwashers is adjustable in most models. There is an upper and lower position for the top rack which is used to accommodate items with different heights. How to Adjust the Top Rack 1. 2. 3.

<http://www.acquaproget.com/images/canon-printer-pixma-ip6000d-manual.pdf>

Figure 9 Pull out empty top rack to the point where it can be lifted upward. Pull the rack outward and up until rollers are completely free of channels. Reinsert the rack with the other set of rollers on the channel. Page 11 LOADING THE DISHWASHER Loading the Silverware Baskets All Bosch dishwashers have a large silverware basket in the bottom rack. Those models with the TOP RACK ONLY feature have an additional upper small silverware basket. Page 12 RACK ACCESSORIES RACK ACCESSORIES Rack Accessories Some Bosch dishwasher models have optional rack accessories. Please refer to the Dishwasher Features Chart on pg. 27 to see which accessories your particular model has. Extra Silverware Basket This basket can be placed in a variety of positions in the upper rack. Page 13 ADDING DETERGENT Selecting the Right Detergent Use only dishwashing detergent in your Bosch dishwasher. It is highly recommended to use powder detergent that DOES NOT contain a drying agent additive. Use of other types of detergents may result in excessive suds. Concentrated detergents usually call for lower usage than standard detergents. Please refer to Table 2 for recommended detergent usage. For the best washing results it is important to use the correct type and amount of detergent and rinse agent. Page 14 ADDING RINSE AGENT Rinse Agent Rinse agent, or a rinse aid, is used to provide optimum drying results and diminish water spotting. Always use a rinse agent with the Bosch dishwasher to insure proper drying results. It rinses the dishware and also rinses the internal parts of the dishwasher. The dishwasher will wash and dry the contents based on cycle selection made. Refer to Tables 3, 4 and 5 Wash Cycle Selection Chart to select the most appropriate cycle for the wash load. However, if the door is opened quickly while in a wash or rinse cycle some water may splash out of the dishwasher. To Interrupt a Cycle WARNING DO NOT PULL DOOR FULLY OPEN WHILE DISHWASHER IS IN OPERATION.

<http://frial.com/images/canon-printer-pixma-ip4600-manual.pdf>

Wash Light is illuminated when any wash cycle is in operation up until the completion of the final rinse cycle. Dry Light is illuminated during the condensation drying phase. Wash Dry Clean Clean

Light is illuminated when the dishes are cleaned, dried and ready to be unloaded. Page 23 SPECIAL FEATURES Please refer to the pg. 27, Table 6 features chart to determine which special features your particular model dishwasher has. Delayed Start On Bosch dishwashers with a 2 digit LED display, the start of the washing cycle can be delayed for up to 9 hours, and the models with a 3 digit display up to 19 hrs. Follow these steps to delay the start of a wash cycle DELAY START BUTTON Cycle Countdown 1. Page 24 SPECIAL FEATURES How to Operate the Cycle Completion Signal 1. Open door, hold down program button see Beeper Table on right and simultaneously turn the Dishwasher on. 2. Release program button. a. For SHV 6803 and SHU9950 models The display will blink with a code of "0", "1" or "2". Page 25 CARE AND CLEANING General Maintenance Certain areas of your Bosch Dishwasher require periodic owner inspection. Page 26 CARE AND CLEANING Check Wash Arms The wash arms should be checked periodically to ensure that the spray orifices are clear and unobstructed. If the wash arms require cleaning they are easy to remove and replace 1. The lower wash arm simply snaps into place. Pull gently upwards to remove it. 2. The upper wash arm is held in position by a locking nut. See Figure 40 Figure 40 3. After cleaning, reinstall the wash arms. Page 27 SELFHHELP Dishwashers may exhibit problems that are unrelated to a malfunction of the dishwasher itself. The following table may serve to answer your question about a problem you are having without having to call a repair person. PROBLEM POSSIBLE CAUSE Dishes do not dry Indicator lights do not come on Dishwasher does not Rinseaid dispenser is empty. Fill rinseaid dispenser. A fuse may have blown or a circuit breaker tripped.

If you want to search this text, hold control and F, and type the word you are looking for. Bosch dishwashers are provided with two manuals; one, Installation Instruction Manual and one, Care and Use Manual. Read all instructions before using the dishwasher. 2. Use the dishwasher only for its intended function. 3. Use only detergents or wetting agents recommended for use in a dishwasher and keep them out of the reach of children. 4. When loading items to be washed a. Locate sharp items so that they are not likely to damage the door seal, and b. For plastic items not so marked, check the manufacturers recommendations. 6. Do not touch the heating element during or immediately after use. 7. Do not operate your dishwasher unless all the enclosure panels are properly in place. 8. Do not tamper with controls. 9. Do not abuse, sit on, or stand on the door or dish rack of the dishwasher. 10. To reduce the risk of injury, do not allow children to play in or on the dishwasher. 11. Under certain conditions, hydrogen gas may be produced in a hot water system that has not been used for two weeks or more. Hydrogen gas is explosive. If the hot water system

has not been used for such a period, before using the dishwasher turn on all hot water faucets and let the water flow from each for several minutes. This will release any accumulated hydrogen gas. As the gas is flammable, do not smoke or use an open flame during this time. 12. Remove the door to the washing compartment when removing an old dishwasher from service or discarding. These must be carefully followed in all cases. See Installation Instructions provided with this dishwasher for complete installation information. Make sure this dishwasher has been properly grounded and installed by a qualified installer before using.

**SAVE THESE INSTRUCTIONS** **GROUNDING INSTRUCTIONS** This appliance must be connected to a grounded metal, permanent wiring system; or an equipment grounding conductor must be run with the circuit conductors and connected to the equipment grounding terminal or lead on the dishwasher. For an explanation of the feature turn a Four spraying levels to the page indicated. Page 4 **BEFORE USING FOR THE FIRST TIME** Before beginning to use your dishwasher for the first time 2. Check to make sure that the water valve to the 1. Check to make sure that the voltage on which the dishwasher is to operate is the same as shown on dishwasher is open. The installer may have closed the rating plate. Minerals in the water may cause spotting or darkening of aluminum. This can usually be removed by scouring with a soap filled steel wool pad. **BONE NOT** Handles may separate. If there is any doubt, please check with the manufacturer of your set or test by washing one piece with each load for a month and comparing this piece with the rest of the set to determine if there has been any fading or discoloration. It is recommended that these be hand washed. Also, fragile glassware is highly breakable, be sure to set the pieces so that they do not topple during washing and so that they do not knock against other pieces. **GLASS USUALLY SAFE** Milk glass may yellow. **NON STICK USUALLY SAFE** After drying the non stick coating should be covered with a light coating of **COATINGS** vegetable oil. **IRON NOT** Iron will rust. Wash by hand and dry immediately. **RECOMMENDED PEWTER NOT** Pewter will tarnish. **STAINLESS USUALLY SAFE** Do not let stainless steel items contact copper or sterling silver or **STEEL** silverplate items. **STERLING USUALLY SAFE** Do not allow to come in contact with stainless steel or copper items. **RECOMMENDED WOOD NOT** Wooden bowls, wooden utensils and wood handled utensils can warp, crack **RECOMMENDED** or lose their finish.

**NON NOT** The Bosch dishwasher is only intended for use in cleaning standard **DISHWARE** **RECOMMENDED** household dishware items. **ITEMS** Table 1. Page 6 **LOADING PREPARATIONS** **FOR WASHING** Very little preparation is required before placing dishes, pots, pans, etc. It is recommended, to save energy and your food disposer. Use a reduced amount of detergent as compared to a full load when disposer. The **NOTE** The program time is not reduced when **TOP** dishwasher cannot remove burned on food. **RACK ONLY TM** is used. Figure 3, shows a typical mixed load for In general, try to remove food scraps and place the items an upper rack washing load. The ends of these shelves are specially formed to help maintain spacing between stemmed glasses. When the cup shelves are in the up position long stemmed glasses may be placed in the first row with their stems placed to rest between the tooth like projections of the shelves. Chipping or other damage may occur. Heavily soiled pots Figure 7. The purpose of mixing the shelves at the back of the lower rack. These shelves silverware is to avoid having them nest together, or may be flipped down to hold extra large utensils, such example if spoons would be placed together they as serving spoons, or long knives. They also may be could nest together so that water could not properly used as additional cup shelves. See Figures 5 and 7. Page 8 **RACK HEIGHT ADJUSTMENT** 2. There refer to figure 9 and turn clockwise to lock sprinkler are two positions, see figure 8 head in place. 1. The upper position is used to provide more room for items to be placed in the lower rack. 2. The lower position is used to provide more room for items to be placed in the upper rack. Figure 9. Extra tall items may now be placed in lower rack for washing, as shown in figure 10. First empty upper rack and pull rack partially out to point where rack can be lifted upward as shown in upper illustration of Figure 8. b.

Pull the rack forward and then up until rollers are completely free of channels. c. Reinsert the rack with the other set of rollers on the channel. Extra Tall Items If you have extra tall items that cannot fit in the lower rack without interfering with the upper spray arm or without hitting the upper rack, the upper rack may be removed. See figure 9. To allow washing of extra tall items Figure 10. 1. With upper rack empty, remove it from the dishwasher by pulling the rack partially out to the point where rack can be lifted upward and out to disengage the wheels from the side rails. Page 9 USING THE DISPENSERS With hard water, or with the POWER SCRUB PLUS cycle, it is recommended that the detergent dispenser For the best washing result it is important to use the correct be completely filled, roughly 9 teaspoons. If additional amount of detergent and rinse agent a detergent is required it can be placed on the inside of the door, just below the dispenser. DETERGENT USE Use only fresh dishwashing detergent powder is recommended manufactured specifically for dishwasher use. Use of other types of detergents will result in excessive suds. Be sure to check the phosphate content of the detergent to be used. Phosphate helps prevent the minerals in hard water from forming a film or spots on dishes. Hard water requires your detergent to work harder. In hard water areas you will find that detergents with high phosphate levels will provide a better result. If the phosphate level is low, below 8.7 %, you may have to use extra detergent in hard water areas. Release Figure 12. With soft water the amount of detergent may be reduced. If you have very soft water, or chemically treated Be sure to follow the dishwasher detergent manufacturer's soft water special care should be taken to use the minimum instructions when using the detergents. Concentrated amount of detergent.

For these situations a high quality, detergents usually call for lower usage than do standard low phosphate detergent is recommended. Too much detergents. After filling the detergent compartment close the cover by sliding it over the detergent chamber and pressing DETERGENT DISPENSER down on the button until it clicks shut. The detergent will The detergent dispenser on the Bosch dishwasher is dispensed automatically during the wash portion of the located on the inside of the door, see figure I as well as cycle. These refer to the volume when filled level display, see Figure 2, and see d cycle has been completed. If the cycle is not complete please refer to section of this the detergent dispenser is completely filled it can hold manual titled TO INTERRUPT OR RESET CYCLE to 45 milliliters, or roughly 9 teaspoons. Rinse agent level indicator Figure 13. RINSE AGENT INDICATOR Figure 14. There is a rinse agent indicator light on the right hand side of the front panel of the Bosch dishwasher, see figure 2. TO ADJUST SETTING There is also level indicator on the dispenser, see Figure a Open the cover of the rinse agent dispenser. 13. This indicator shows the level of rinse agent that is in a Turn the setting indicator to the desired setting. See the rinse agent reservoir. As received, and when empty the Figure 15. When the rinse agent reservoir is full the indicator light will not be illuminated and the level indicator on the dispenser will appear dark. RINSE AGENT DISPENSER indicator Rinse agent, or a rinse aid, is used to diminish water spotting and to provide optimum drying results. It is recommended that a rinse agent be used at all times with the Bosch dishwasher. In a Bosch dishwasher the rinse agent not only serves to rinse the dishware, but also serves to rinse the tank and inner door of the dishwasher. The tank and inner door will begin to take on a dull, unpolished look, if rinse agent is not used.
